CLEARFLOW
Smart Water Management

Water & Wastewater Utilities Face Increasing Challenges to Operate, Maintain and Upgrade Vertical Assets
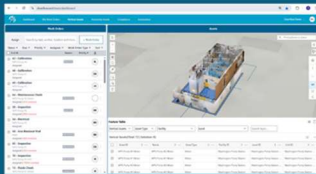

· LIMITED VISIBILITY · FRAGMENTED DATA · MANUAL PROCESSES · REGULATORY PRESSURE
· TRACKING PM & CM · UNPLANNED DOWNTIME · BUDGET CONSTRAINTS · AGING ASSETS
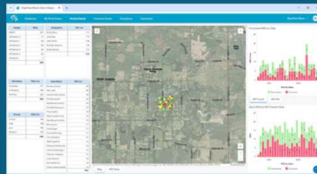

SOLUTION

ClearFlow Transforms Vertical Asset Management

ClearFlow's scalable **platform** efficiently tracks, optimizes & maintains all your **vertical assets** with **real-time visibility**, **automation** & full **ArcGIS integration**.
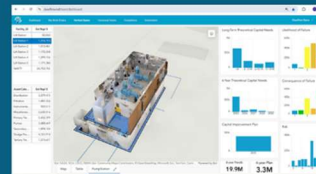

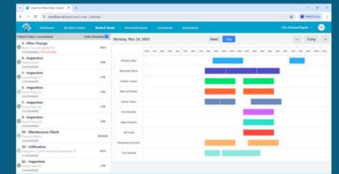

ONE SCALABLE PLATFORM, ALL YOUR VERTICAL ASSET NEEDS

Asset Tracking   **Work Order Mgmt.**   **CIP Planning**   **Time & Materials**

FEATURES

- **ArcGIS-based**: Provides real-time mapping & tracking of all plant and facility vertical assets.
- **Lifecycle & CIP**: Adds visibility of asset lifecycles, costs, and risks from acquisition to retirement.
- **T&M** : Automates & tracks scheduling of PM & CM, helping extend asset life & reduce downtime.
- **Mobile Access**: Provides in-field access to asset data, work & history via NFC or QR asset tags.
- **Digital Twin**: Integrates LiDAR & 360° imagery to enhance 3D digital-twin visibility & insights.

BENEFITS

⊕ Visibility
Gain real-time visibility of asset data, workflow, history & lifecycle costs.

Efficiency
Maximize efficiency & reduce downtime with automated workflows.

Simplicity
Simplify T&M mgmt. and reporting with real-time asset tracking.

$ Cost Savings
Extend asset lifespans, reduce maintenance costs & optimize CIP.
