CLEARFLOW
Smart Water Management

CHALLENGE

Water & Wastewater Departments Face Increasing Challenges to Manage, Operate, and Maintain Complex Vertical & Linear Asset Networks.
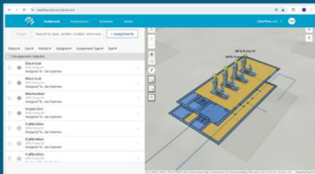

· LIMITED VISIBILITY   · FRAGMENTED DATA   · MANUAL PROCESSES   · REGULATORY PRESSURE
· UNPLANNED DOWNTIME   · BUDGET CONSTRAINTS   · AGING INFRASTRUCTURE
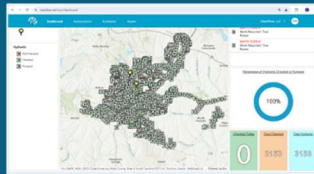

SOLUTION

ClearFlow Transforms Water & Wastewater Asset Management.

ClearFlow's integrated **SaaS platform** efficiently manages, optimizes & maintains **vertical** & **linear assets** with **real-time visibility**, **automation** & **ArcGIS integration**.

ONE SMART PLATFORM, ALL YOUR ASSET NEEDS

Vertical Assets   **Linear Assets**   **LiDAR Scans**   **NFC Asset Tags**

FEATURES

ArcGIS/SCADA: Seamlessly integrates real-time management of vertical & linear assets.
Lifecycle & Costs: Adds full visibility of asset lifecycles & costs from acquisition to retirement.
Proactive Maintenance: Automates workflow scheduling & tracking to prevent breakdowns.
Mobile Access: Provides real-time, anywhere access & updates to asset data, work & costs.
LiDAR & NFC: Integrates LiDAR scans & NFC tags for enhanced digital-twin visibility & insights.

BENEFITS

Visibility
Gain real-time visibility of vertical/linear asset data, work & costs.

Efficiency
Maximize efficiency & minimize downtime with automated workflows.

Compliance
Ensure compliance with easy reporting & real-time data tracking.

$ Cost Savings
Extend asset lifecycles & reduce overall maintenance costs.
